

WHAT IS CLAIMED IS:

1. A thermoplastic molding composition comprising polycarbonate and
5 50 ppm to 300 ppm, in relation to the weight of the composition, of
diphenyl carbonate.
2. The composition according to Claim 1, wherein the content of
polycarbonate is at least 80 wt.% in relation to the weight of the
composition.
- 10 3. The composition according to Claim 1 further containing 3 to 5 wt.% UV-
absorber.
4. The composition according to Claim 1, wherein the polycarbonate is
15 bisphenol A homopolycarbonate.
5. The composition of Claim 1 wherein the polycarbonate is a product of
transesterification of at least one bisphenol and at least one carbonic acid
diaryl ester.
- 20 6. A multi-layer product comprising at least one layer A and at least one layer
B, wherein layer A contains polycarbonate or polyester carbonate, and layer
B contains the composition according to Claim 1.
- 25 7. The multi-layer product according to Claim 6, wherein the product has the
layer sequence B-A-B.
8. The multi-layer product according to Claim 6, wherein layer A contains
bisphenol A homopolycarbonate.

9. The multi-layer product according to Claim 6, wherein the multi-layer product is a multi-layer sheet.
 10. The multi-layer product according to Claim 7, wherein layer A contains bisphenol A homopolycarbonate.
